EXPERIENCE

•**ViralChilly Digital Marketing and Web Development Company** *May 2023 - January 2024*
WordPress Developer

- Actively contributing as a WordPress Developer at ViralChilly, specializing in various aspects of web development.
- Collaborating within a team environment to create and implement innovative web solutions.
- Assisting in the design, development, and maintenance of responsive websites, ensuring functionality and user-friendly.
- Developed websites using Oxygen Builder and Elementor, honing intuitive and visually appealing web design skills.
- Contributed actively to creating, enhancing, and maintaining responsive websites while gaining hands-on experience in diverse programming languages and frameworks.

PROJECTS

• **Bakery Management System** *Project description(Bakery Management System: Efficient bakery operations)*
Ongoing Since Feb 2024

- Developing a comprehensive Bakery Management System tailored to meet the specific operational needs of bakery businesses.
- Key functionalities include the development of an accessible admin panel, robust supplier and customer management modules, precise inventory tracking mechanisms, and efficient order processing systems.
- Implementing advanced features such as pagination, sorting options, and customizable settings to optimize user experience and enhance system adaptability.
- Creating user-friendly sidebar navigation and dynamic dashboards with analytics for data-driven decision-making and business strategy.
- Contributed to token management, enhancing security and user authentication processes for data integrity and compliance.
- Working on order management to streamline the process and improve efficiency in handling bakery orders.

• **Sattler & Froß Law Firm Website** *Project description(Website development for Law Firm)*
October 2023

- Utilized Oxygen Builder to develop a dynamic and responsive WordPress website, ensuring seamless functionality and visually appealing design.
- Developed a professional website for Sattler & Froß Law Firm, providing comprehensive information about their legal services and expertise.
- Key features include a user-friendly interface, intuitive navigation, and responsive design for seamless accessibility across devices.
- Implemented features such as contact forms, appointment scheduling, and informational sections to enhance user engagement and facilitate client interaction.
- Collaborated closely with seniors to ensure alignment with their vision and objectives, delivering a website that meets their specific needs and requirements.
- Utilized Advanced Custom Fields (ACF) to seamlessly integrate and manage frequently asked questions (FAQs).

- **Nail Nest By Manali** *Project description(Nail Nest By Manali: E-commerce Store)*
  September 2023

  – Tools & technologies used: I leveraged the Wix platform to create a dynamic online store for nail products.
  – Developed a fully functional e-commerce platform, offering a wide range of nail products for purchase.
  – Designed the website to be dynamic and engaging, ensuring a seamless user experience across all five pages.
  – Integrated a dedicated blog section, allowing for creating and publishing informative and engaging nail-related content.
  – Included a section for customer reviews and testimonials, providing social proof and building trust among potential buyers.
  – Incorporated a user-friendly contact form for inquiries, feedback, or support, enhancing customer engagement.
